**GASTRONOMIC
ROUTES**

**ZARAGOZA
WORLD CAPITAL
OF GARNACHA**

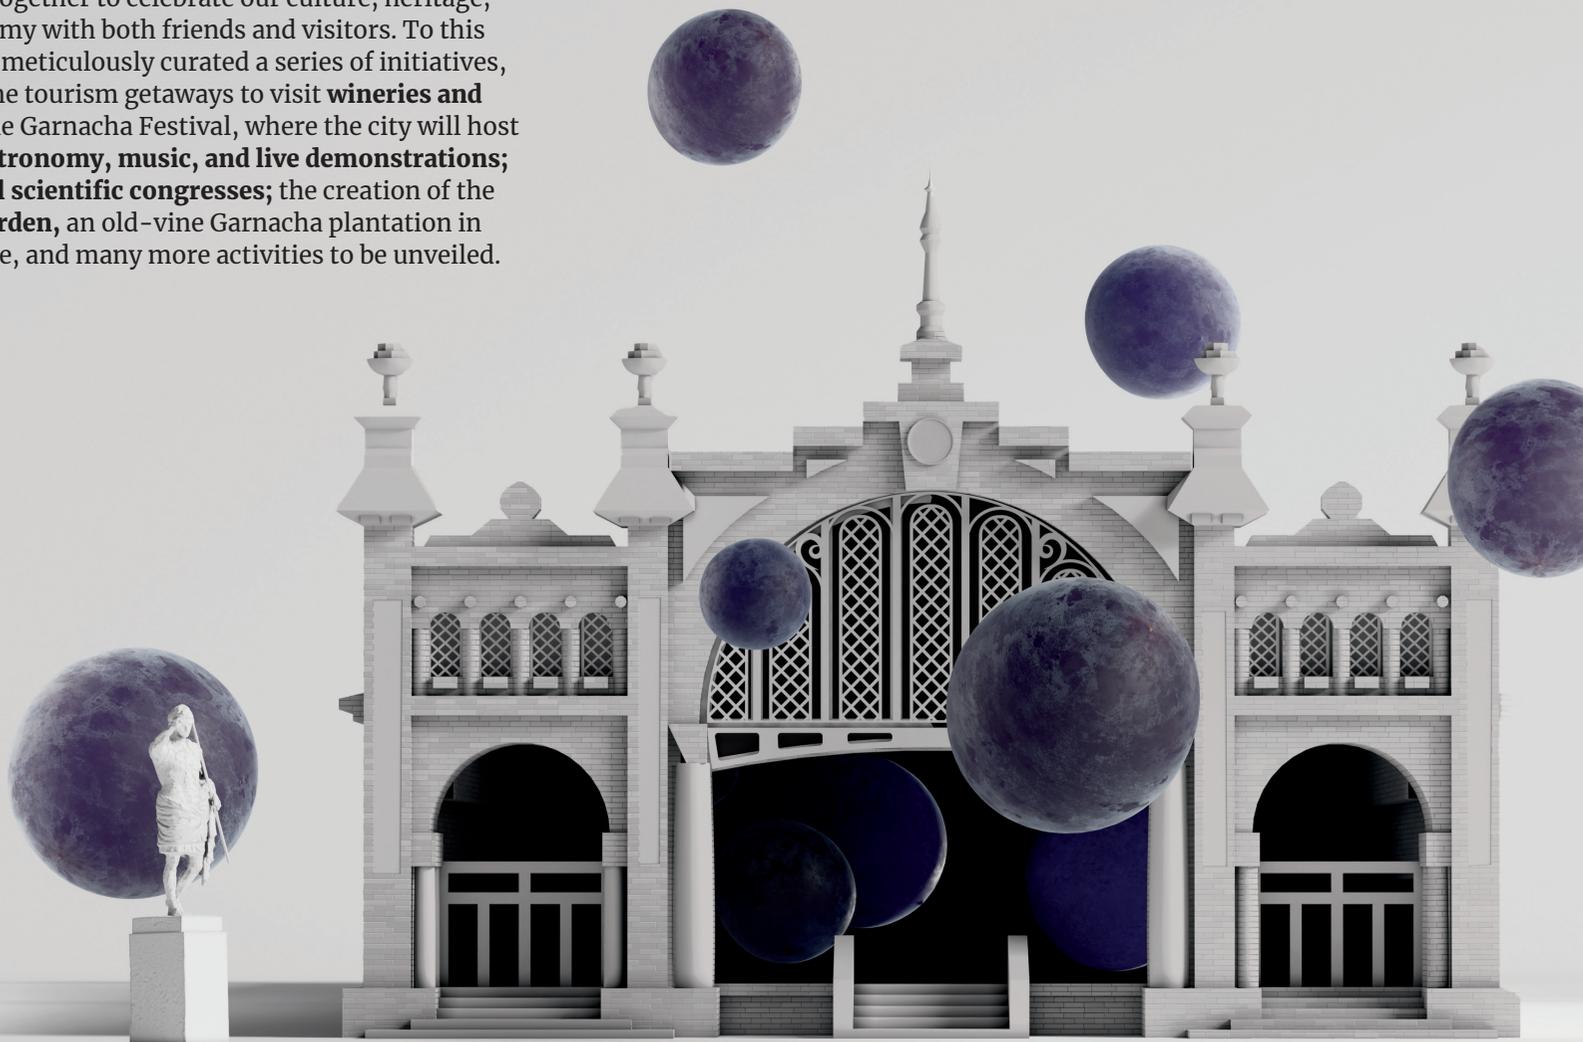

With its intense aroma and flavour, this is the essence of our land. Here, wine is more than just a drink—it is a celebration of life.

Zaragoza is the World Capital of Garnacha. The Zaragozan origin of this grape variety is not new, but what is new is the ambition to establish Zaragoza as the capital of wine and gastronomic tourism. This region boasts three denominations of origin –**Calatayud, Campo de Borja and Cariñena**–, renowned for producing the finest Garnacha wines in the world.

Let us come together to celebrate our culture, heritage, and gastronomy with both friends and visitors. To this end, we have meticulously curated a series of initiatives, including wine tourism getaways to visit **wineries and vineyards**; the Garnacha Festival, where the city will host **tastings, gastronomy, music, and live demonstrations**; **international scientific congresses**; the creation of the **Garnacha Garden**, an old-vine Garnacha plantation in the city centre, and many more activities to be unveiled.
